

### ***Espee to Face Three Charges of Discrimination.***

ler, San Francisco District Attorney. Lawyer has devoted weeks of hard study and thought to the railroad cases and is confident he will be able to prove his allegations. He had access to all the books of the corporation and in his investigation followed closely the lead laid out at the hearing before the Interstate Commerce Commission at San Francisco.

He summoned officials of the company before the grand jury and probed into the various transactions with the Penn Fruit Company, H. Newmark & Co. and the three Chinese firms. In his researches, lawyer has uncovered a number of interesting facts.

Duncan, a special assistant to H. E. C. Sengstacke, and several

dent. He said the negroes will show their appreciation by electing William H. Taft for the nomination.

Flint declared that President Roosevelt owes his life to the negroes who fought with him at San Juan Hill.

"After President Roosevelt's action in dismissing the negro troops without a trial, there is not an intelligent colored man in the United States mean enough to do him honor," is the way Flint concluded.

Attorney Paul M. Nash, a negro, spoke nearly an hour. He apologized for his presence by saying that he had much to lose by coming to such a meeting. He was not as fierce as others.

"I have a friend who is a victim of the aqua mania," he said. "He spends hours in a bathtub and drinks so much water that he has reduced the solids of his body and worked serious injury to himself. Many cases, and

## GREAT BOXING CARDS DATED.

Langford and Flynn Are on for July Fourth.

McCary and Jeffries Have Fixed June Dates.

Gardner and Menney Are to Go to Goldfield.

San Langford and Jim Flynn, July 4, twenty-five rounds before the Jeffries Athletic Club.

Joe Gans and Battling Nelson, July 4, forty-five rounds, at San Francisco. Jimmy Gardner and Rube Smith, July 4, to a finish at Goldfield.

Frank Caray and Kid Dalton, June 26, twenty-five rounds before the Jeffries Athletic Club.

Peter Sullivan and Howard Baker, June 26, fifteen rounds before the Jeffries Athletic Club.

Battling Johnson and Arthur Van Dozer, June 26, ten rounds before the Pacific Athletic Club.

Eddie Menney and Martin Hebron, June 26, twenty rounds at Goldfield.

All the above boxing matches have been arranged with the exception of the Langford-Flynn battle, and as both contestants have agreed to fight and the club is anxious to stage them, in all probability articles will be signed soon.

Flynn has told a Denver newspaper man that he would fight any one in the world, and would agree to meet Langford before Jeffries' Club, July 4. Langford is ready to come at a moment's notice and will advise from his manager, Joe Woodman.

The Flynn-Langford fight will be about the best ever seen here, in the opinion of many of the fans. Flynn is heavier than Langford and a strong, rugged fighter, not devoid of cleverness. Langford is very clever and has the punch, though not as much strength as Flynn.

Gardner received assurances last night that his bout with Rube Smith had been arranged for July 4 at Goldfield. The weight was specified at 142 by Gardner, but Smith last night asked that it be 145, and Gardner said he would accept if Smith insisted.

Frank Caray is to meet Kid Dalton in a twenty-five-round battle before the Jeffries Athletic Club June 26. Dalton's decision over Peter Sullivan is considered sufficient to give him a main event, and Caray was selected as his opponent.

Peter Sullivan last night signed articles to fight Howard Baker in the preliminary, at 145 pounds. Sullivan had been promised a main event at Goldfield, but he decided to put on all heavyweight battles that evening, and in addition to the main event, has matched James Sampson and Frank Heibrock, negroes, for ten rounds with a six-round battle to be arranged later.

**NATIONAL LEAGUE.**  
LEADERS ARE DEFEATED.  
(BY THE ASSOCIATED PRESS-P.M.)  
CHICAGO, June 11.—By a trifle cleaner hitting and much better pitching, Pittsburgh defeated Chicago today.

Score: Chicago, 4; hits, 7; errors, 2. Batteries—Fraser, Brown and Kling; Madden and Gibson.

**WHIP THE GIANTS.**  
(BY THE ASSOCIATED PRESS-P.M.)  
BOSTON, June 11.—Boston won the first game of their long home series from New York today. Score: New York, 4; hits, 8; errors, 1. Batteries—Whitely and Needham; Dorner and Bowerman.

**GANZEL PROTESTS.**  
(BY THE ASSOCIATED PRESS-P.M.)  
CINCINNATI, June 11.—St. Louis and Cincinnati split even in a double-header today, although Manager Gansel protested the second game on the ground that umpire Emile Greider was allowing Higginbotham to bat a second time after he had struck out while batting out of turn. Score: Cincinnati, 3; hits, 6; errors, 0. St. Louis, 3; hits, 8; errors, 0. Batteries—Campbell and McLean; Beebe and Ludwig.

**AMERICAN LEAGUE.**  
CHESBRO BACK TO FORM.  
(BY THE ASSOCIATED PRESS-P.M.)  
NEW YORK, June 11.—New York shut out Boston today 2 to 0, Chesbro pitching a fine game and the local fans giving him errorless support. Score: Boston, 0; hits, 4; errors, 0. Batteries—Graham, Pettit, Bailey and Spencer; Owen, Manuel, Walsh and Sullivan, Shaw.

**SIX RUNS SCORED.**  
(BY THE ASSOCIATED PRESS-P.M.)  
PHILADELPHIA, June 11.—Philadelphia won today's game in the second inning when six runs were scored on four hits, two passes, a wild pitch and an error by Delehanty. Score:

Washington, 1; hits, 8; errors, 1. Philadelphia, 6; hits, 10; errors, 2. Batteries—Smith, Cates and Street; Plank and Powers.

**Minor Sunday Baseball.**  
Among the many minor ball games played in this city and vicinity Sunday the scores were: At Pasadena the home team beat the warship Maryland team, 14 to 5; at the Chutes grounds the Edmonds beat Venice, 5 to 2; at Joy Park, in the Southern State League, the Salt Lakes beat the Eagles, 10 to 1; Pendo beat the Wiland, 3 to 2; at Thirty-eighth street and Santa Fe avenue, at Thirty-eighth and Alameda streets the Lakes beat the Council, 6 to 3; at Torrance the home team beat the Moles, 11 to 9; at Gardena the home team beat the San Pedro Merchants, 22 to 5; the Elberton beat the Peruvians, 5 to 1; at Agricultural Park, at Arcadia Pico Heights beat Santa Anita, 6 to 2; at Laguna the home team beat the Emerson Stars by a 9 to 2 score; at Belvedere the home team beat the Brooklins, 10 to 4, and the Dyan-Chines, 12 to 1; at Ellendale and Washington streets the Palmettos beat the Union Squares, 8 to 2; at Delcerville the home team lost to the Glants by a 2 to 0 score; at Norwalk the home team beat the Westlakes, 4 to 2; at the Slauson-avenue grounds the Fraternal Aid team beat the Melcers, 15 to 14; at San Gabriel the home team shut out the Asot Athletic Club nine, 10 to 0; at Garvanza the home team lost to the Palmettos by 15 to 8; at San Monica the team from the cruiser California beat Santa Monica, 7 to 6.

**AMERICAN ASSOCIATION.**

## KEENE'S CELT SETS RECORD.

Great Colt Wins Brooklyn Handicap Easily.

Popular Owner's Bank Book Holds Added Figures.

Fair Play Second and Master Robert Is Third.

(BY THE ASSOCIATED PRESS-P.M.)  
NEW YORK, June 11.—Cheered by more than 25,000 persons, Celt, a three-year-old colt, bearing the popular colors of James H. Keene, won the twenty-second running of the Brooklyn Handicap at the Gravesend race track today. He did it easily, but at the same time made a new record for the race and the Gravesend track, stepping the distance of a mile and a quarter in 2:04 3/4. Fair Play, August Belmont's colt, which ran a grand race against Celt on Saturday, in the Belmont stakes, was second, and Master Robert was third.

The Gravesend course was packed with people eager to see the running of the handicap. When the bugle sounded for the race there was a roar of applause for the favorite Celt, who came from the paddock to go to the post. Ridden by Notter, he cantered past the grand stand, looking the winner that he proved to be. At the start he was second to get away, but after the first half-mile he led his field and from that time to the finish he was never in danger, winning with the greatest of ease in new record time for the race, and the course over which it was run.

As Celt came down the stretch well ahead and almost eased up by his leader, a great cheer went up from the throng in the grand stand and on the lawns. The great Colt and his brother-in-blood, Celt, both sons of Commando, have won such impressive victories last year and this that the people have come to the point of almost idolizing them, and they have done much to place some time ago with the blue polka-dots the most popular colors of the day and perhaps even in the history of American racing.

Colt, by winning the Belmont stakes on Saturday, and Celt's victory in the handicap today, added \$40,000 to Mr. Keene's stake winnings in two consecutive racing days. Results:

Six furlongs: Roeben won, Berryman second, King Cobalt third; time, 1:18.

One mile and one-sixteenth: Hyperion II won, Rockstone second, Hyperion III third; time, 1:47 3/4.

Five furlongs: Blackford won, Torbellino second, Ross Penton third; time, 1:02.

The Brooklyn Handicap, three-year-old colts course of 1 1/4 miles, was won by Celt, 106 (Notter) second; Fair Play, 99 (E. Dugan), third; Master Robert, 96 (Gilbert), third. Time, 2:04 3/4.

King James, Don Croole and Berkeley also ran.

Six furlongs: James B. Brady won, Beeson second, Arzo third; time, 1:10 1/4.

Five furlongs: Connaught Ranger won, Ebebe second, Otoggo third; time, 1:16 1/4.

**SHAMROCK WINS RACE.**  
Defeats White Heather in First Try-out Preparatory to Contest for American Cup.

(BY THE ASSOCIATED PRESS-P.M.)  
HARWICH (England) June 11.—The Shamrock, Sir Thomas Lipton's new racing cutter, and the White Heather took part in a race today over the Harwich course of thirty miles in the Royal Harwich regatta.

Starting with the Brynild and the Nyra, all bunched with the Shamrock on the weather berth, the White Heather took the lead in a lull until a mile from the finishing line, where the Shamrock cut her out while rounding the buoy and beat her by one minute and eight seconds.

A special cup presented by the Prince of Wales for big yachts to be raced over the same course was won by the Celtic, a schooner, which beat Emperor William's Meteor and the German yacht Clara and Susanne.

**TROOPS TO GUARD COURSE.**  
Six Companies of Oregon National Guard to Patrol During Race.

(BY THE ASSOCIATED PRESS-P.M.)  
PORTLAND (Or.) June 11.—Six companies of the Third Regiment, Oregon National Guard, consisting of 300 men, will patrol the course and prevent all teams or automobiles, other than the entries in the big automobile race to be held Thursday, from using the roads traversed in the race from 10 o'clock in the morning until after the races are run.

The sanction of the American Automobile Association has been secured and any records made here will be recognized by that body.

**Teddy Is Ahead.**  
RAWLINS (Wyo.) June 11.—Charles Workman, Cody, Wyo., riding Teddy, was the first man to reach Rawlins in the Evanston-Denver endurance race. He arrived here at 1:15 this afternoon. Both horse and rider were in fine condition. Rawlins is 143 miles east of Evanston. The race started at 6 a.m. last Saturday.

**Start Watch Industry.**  
The University of Michigan athletes in the last six years have brought back from Philadelphia over thirty gold watches, valued at about \$400. Some of the most famous college have over \$500 worth of chronometers annexed in the course of the athletic events in the City of Brotherly Love. The watches are given by the University of Pennsylvania Athletic Association. Spider' Coe has five of these \$125 watches now.

Renowned "Billy" Sunday, who gave up the diamond to preach golden texts. He still loves the national game but is opposed to playing on Sunday.

## WISE TALKS

By the "Office Boy"

I heard a man say the other day that "Marriage is a lottery." If that's true, why don't they arrest the minister? You don't have to take any chances if you trade at a Silverwood Store. Everything is just what it is represented to be. We could take your goods and mark them away up and then give you a big discount and make you think they were cheaper. But what's the use? That's not business. They wouldn't be any cheaper and we don't want to obtain customers under false pretenses. Every article in a Silverwood Store is priced in plain figures. You'll be surprised what a good deal we will sell you for \$10, \$15 and \$20. It is awfully refreshing to trade at a store that has no two prices and sells things cheaper than they are sold at any old store. We want your patronage. Can't we have it?

**OCCIDENTAL DECIDES TO TAKE MICHIGAN MAN.**

Hurry-up Style of Football to Be Played by Presbyterians Next Season When Yost's Former Pupil Arrives—Stronuous Game to Be Introduced on the Coast.

Henry F. Schulte, the former Michigan University guard, who was a member of the all-western football team for two years and whom Walter Camp placed on the 1904 All-American team in 1905 and 1906, has been offered the position of head coach at Occidental College, and as he made application for the place some time ago it is probable that he will have charge of the Presbyterian athletic teams during next year.

Schulte is now head coach at Michigan State Normal College, at Ypsilanti, and L. H. Jones, president of the institution, has written Dr. Baer that Schulte is a first-class coach, and has been very successful. Other eastern men have highly recommended Schulte, and President Baer believes he would be able to do his work at Occidental.

Dr. Baer has had Schulte's application some time, but yesterday he decided to accept the offer. Schulte is a graduate of the University of Michigan, where he was a member of the Presbyterian athletic team, and he is a native of Michigan.

With George Braden as physical director, a prominent athletic coach and a graduate manager, next year, the Presbyterians expect to cut a figure in athletics. The material in school for the basketball team is good.

The matter of a gymnasium building has not yet been settled, but President Baer is hopeful of raising the necessary money before the present school year closes.

Work will be rushed on the building during the summer months in order that it may be ready for occupancy when the new term opens.

**Americans Will Shoot.**  
LONDON, June 11.—The difficulty which threatens to deprive the rifle shooting contest in the Olympic games at Blaise this year of the presence of American marksmen has been overcome and representatives of the United States after all will participate in the matches. Finding that the Olympic Association was unable to prolong the date of entry, the National Rifle Association of America called its list of names and the Olympic Association called this afternoon that it will accept the entries if they are made today on regulation forms, including the United States, ten nations will be represented.

**JOHNNIE, AS USUAL, LEADS IN VOLUME OF SALES.**

**Goldfield Leaders Maintain Position Fairly Well and Some Gains—Traders Include Combination Fraction, Florence, Daisy and Number of Cheaper Issues.**

The local mining stock market was rather quiet yesterday as a result of the holidays, but trading was in greater volume than might have been expected under the circumstances.

The Goldfield leaders maintained their position fairly well and some gains were made. The combination fraction, Florence, Daisy and a number of cheaper issues were also active.

Goldfield Consolidated was the most active of the leaders, with a gain of 1/2 point to 12 1/2. The combination fraction was also active, with a gain of 1/4 point to 1 1/4.

Florence was also active, with a gain of 1/4 point to 1 1/4. Daisy was also active, with a gain of 1/4 point to 1 1/4.

A number of cheaper issues were also active, including the combination fraction, Florence, Daisy and a number of other issues.

The market was generally quiet, with only a few issues showing activity.

THE CITY IN BRIEF

"Tag! You're it!"

NEWS AND BUSINESS.

**School Exhibit.**  
The Second-street school will hold an exhibit of pupils' work tomorrow afternoon from 1:30 to 3 o'clock, to which parents and friends are invited.

**Dr. Hugh K. Walker** arrived at home from Kansas City yesterday, where he had been in attendance upon the General Assembly of the Presbyterian Church.

**Roadside Improvement.**  
The Roadside District Improvement Association will hold its regular monthly meeting tonight at the Washington-st. schoolhouse. Several important subjects will be discussed.

**Annual Recital.**  
Pupils of the Boston School of Expression gave an annual recital last night at Woodbury College Hall. The program included classical exercises, monologues, short scenes from some of Shakespeare's plays and readings.

**Spanish Veterans Encampment.**  
The Department of California, United Spanish War Veterans, gives notice that the fifth annual encampment will be held at Vallejo, on August 19, 20 and 21. Full details of the encampment accommodations, business and social features, will be issued later.

**Collision and Injury.**  
Augustine Molino, 25 years of age, was seriously injured yesterday afternoon when a car of the Central-avenue line collided with a wagon which he was driving. The accident occurred at Ascot avenue and Thirty-eighth street. Molino was thrown and his head and face lacerated.

**Knights to Hospital.**  
Rev. Will A. Knighton, though not seriously ill, decided yesterday to go to the California Hospital and submit to careful treatment for stomach trouble. He will continue to direct the affairs of Union Avenue Methodist Church, of which he is pastor, from the hospital.

**Ex-Judge Waldo M. York** yesterday delivered an address before the students of the Los Angeles State Normal School, for his subject, "Memorial Day Lessons." He treated it in a broad way, referring to the different wars in which this country has engaged, their causes and results.

**Thirty-eighth street** is being graded and improved. The street will be treated with a coating of oil, which will be cultivated into the surface. A water will then be used and the surface will be finished with a fine coating of gravel. This thoroughfare will be improved from Central avenue to Ventura street.

**Have a Drink?**  
The elegant drinking fountain built at Benton boulevard and Hoover street by the Society for the Prevention of Cruelty to Animals is completed and will be dedicated Wednesday afternoon at 5 o'clock, when it will be formally turned over to the city. Mayor Harper and other officials will participate in the ceremony.

**Blow With Ax Kills.**  
Chikaki Mikura, a Japanese laborer, who was attacked by two unknown men a week ago near Newark, died last night at the Japanese hospital on Lafayette street. The body was taken to Brown Bros' morgue, and the coroner ordered an investigation. Mikura's skull was fractured from a blow dealt with an ax.

**Western Will Rebuild.**  
That more room may be obtained for the increasing congregation of the Brethren Church, at Fifty-first street and Hooper avenue, will be rebuilt. The structure, put up four years ago, is being torn down preparatory to the proposed improvements. H. Wertmuller is the pastor. He has done an important work in South Los Angeles.

**Methodist Committee.**  
The Methodist ministers at their meeting held yesterday appointed a committee to arrange for a reception to be tendered Bishop McIntyre by the Methodist ministers and their wives, and also to cooperate with other committees in arranging for a great popular festival to the new bishop. The committee is as follows: Rev. Frederick Miller, Rev. G. W. Wilson, Rev. J. L. Piner, Rev. P. H. Bodkin, Rev. E. P. Ryan, Rev. T. E. Patten, Rev. S. A. Thomson.

**FAVORS PROHIBITION.**  
CINCINNATI, June 1.—Following an impassioned address by the Rev. David McKinnon, the national synod of the Reformed Presbyterian church today adopted resolutions unanimously to the effect that State and national prohibition are the only ultimate solution of the liquor problem.

**The running of Sunday railroad trains, Sunday baseball, Sunday theaters and other Sunday amusements** are specifically opposed in the resolutions.

**BREVITIES.**  
Save 20 to 30 per cent. on eye glasses and spectacles. Best quality lenses in a ten-year gold-filled frame, only \$1.50; regular price \$2.50 to \$5. Eyes examined by graduate optician; satisfaction guaranteed. Consultation free. Clark's Optical Parlors, new location, 254 S. Broadway, near 2nd st.

**Dr. Gertrude B. B. B.**, eye specialist, 2nd st. at Main, 4th and Broadway.

**Dr. J. W. Ball**, chiropodist, 8 years with A. Hamburger & Sons, removed 409 Byrnes Bldg., 3rd and Broadway.

**Pure sales auto and rain coats** at D. Bokoff, furrier, 234 S. Broadway.

**Peniel Hall**, 227 S. Main st., Gospel meetings, noon and night, daily.

**Lewis's Single Binder**, the famous straight razor sale \$500,000.

**Holt's Art Store** and Cardwell Vincent Co. move to 709 S. Spring st.

**Cafe and cafeteria**, 3rd and Hill, 3rd Hill, Cherry pie today.

**Edw. D. Bungalow** open June 1.

THREE GRACES.  
DESERT SOCIETY  
FOR THE SICK.

THREE SISTERS DEDICATE LIVES TO HOSPITAL WORK.

Daughters of Millionaire Ex-President of Southern Indiana Railroad Adopt the Profession of Nursing, in Face of Opposition by Their Many Friends.

(BY THE ASSOCIATED PRESS.—A.M.)  
CHICAGO, June 1.—Denying themselves the honors and privileges of society, Misses Adelaide and Vivian Walsh, daughters of John R. Walsh, millionaire ex-president of the Southern Indiana Railroad, have dedicated their lives to the care of the sick and injured.

Now, upon the eve of the graduation of Miss Adelaide Walsh from the Mercy Hospital Training School for Nurses, a third sister, Dorothy Walsh, contemplates leaving the family home to adopt the same career.

Miss Adelaide Walsh entered a course of training at the Mercy Hospital Training School, affiliated with the Northwestern University, three years ago. During her course of study she had been closely associated with J. B. Murray, acting as nurse for many of his patients. She was private nurse to Bishop Edward Dunne of Dallas, Tex., when the latter was taken to Mercy Hospital, suffering with heart disease, in November. Early in February he was moved to his home in Texas, and Miss Walsh went with him, caring for him until the early part of May. So enthusiastic was Miss Adelaide Walsh over her chosen profession that her sister Vivian determined to follow in her steps, and a year ago she entered the training school. Now Miss Dorothy Walsh announces her determination to be the third nurse of the family.

The three girls are unusually beautiful, and as each one has decided to adopt the profession of nursing they have met the energetic opposition of society friends. Miss Adelaide Walsh was educated at the Sacred Heart Academy of this city, the select school where once pupils were Mrs. Potter Palmer, Mrs. Mather Smith and Mrs. Marshall Field, Jr.

Graduation exercises of the Mercy Hospital Training School are to be held at the Auditorium Thursday night. The class with which Miss Walsh graduates numbers thirty.

A French system for the employment of alternating instead of continuous currents, which it is claimed will permit the use of twelve instruments on a single wire, was presented yesterday at the International Telegraph Congress at Lisbon by M. Mercadier, the inventor.

**VITAL RECORD.**

Appearance

This counts in business. If you are well appearing, good natured and competent, you will find it easier to earn a living and to get along rich, than if you are the reverse.

This brings up the subject of clothes. The appearance of a man is judged by his clothes and the first thing necessary to a good appearance is a B. & K. suit.

They are always superior in fit, workmanship, style and material.

Suits in Order \$20 to \$50. Mail orders filled.

**China Silk Waists**  
Special at  
\$5.00

These are White China Silk Waists, suitable for the warm days—prettily trimmed with German Vals and Fillet Laces, with new trimmed sleeves. The general effect of these Waists is very delicate—they are really exquisite for warm weather wear. Unusually strong value at the price—\$5.00 each.

**Silk Waists**  
\$8.50

These are Net and Lace Waists, lined with China Silk. They are beautifully trimmed with Vals, Irish and Fillet Laces. These are very dressy Waists, up to the moment in style. We consider them very remarkable values at the price. \$8.50 each.

**Sample Waists**  
Worth \$5.00  
\$3.50

Sample Waists in Mulls and French Lawns, elaborately trimmed with Laces and Embroideries. The work is excellent, and it is only because they are samples and purchased at less than value, that we can sell them at \$3.50. In regular stock they would be marked \$5.00—and be well worth the price.

**\$10.00 Waists**  
\$5.00

We have marked down a broken lot of Sample Waists. Sizes are somewhat broken, a few of these Waists are soiled from use in the store. Former prices were \$10.00. The Waists are excellent values at the price. Special sale price to close this lot at \$5.00.

## MINES AND MINING.

## WILL BUILD BRANCH ROAD.

Sonora Copper Company Working Steadily.

The Mine of Twenty-nine Palms Buys Hoist.

Skidoo Mill at Present Dropping Ten Stamps.

Baker, director of the Sonora Copper Company, operating in a way sixty-five miles east of the mine of Sonora, Mex., returned from a visit to the mine accompanied by two prominent stockholders. The party returned from Sonora on the Pacific and was escorted to the mine by a party of sixteen soldiers. While little is said of the troubles there, it is believed that the necessity for armed troops to prove that the rebellion has been suppressed sufficiently to permit of traveling without

the Sonora Copper Company has a total of \$10,000,000, of which about \$5,000,000 has been issued and maintained offices in New York. The mine is scattered throughout the United States and comprises many miles. About \$200,000 has already been spent on development and the new mine is now being developed. The mine is now being developed and the new mine is now being developed.

The mine is now being developed and the new mine is now being developed. The mine is now being developed and the new mine is now being developed. The mine is now being developed and the new mine is now being developed.

## NEGRO VOTE IN POCKET.

(Continued From First Page.)

personally acquainted with all of the political leaders, and our convention is endorsed by Chairman Harry New and Secretary Elmer Dwyer of the Republican National Committee. Also I have letters of endorsement from President Roosevelt, Secretary Taft and other prominent Republicans at arms of the Republican National Committee, and have acted in that capacity at the last three national conventions.

"We shall announce Mr. Taft as our choice for President, but of course will support whoever is the nominee of the Republican convention."

HINT OF BIG STICK.

"We shall request the National Committee and Credentials Committee to seat the colored delegates elected in various Southern States, where there have been several splits and in some instances two conventions, both whites and blacks electing delegates. With our voting strength we are in a position to demand our rights in this matter."

"The Brownsville affair will cut absolutely no figure in the colored vote. Instead of blaming President Roosevelt and Secretary Taft, I give them credit for upholding the dignity of the army. We are convinced that both the President and Secretary are not prejudiced against our race. The President by his many appointments and by inviting the Hon. Booker T. Washington to his table with no other motive than pure friendship, has proved this. Secretary Taft also has shown his fairness to the colored people."

"I stumped New York for Roosevelt for Governor in 1920. I made my first political speech in California working for Senator Perkins in his campaign for the Governorship."

SCOTLAND NEGROES.

"I will leave for Chicago as soon as my car arrives at Salt Lake, and throughout the campaign will manage the work among the negroes from the headquarters in the Windy City. Chicago is now in charge of the campaign. We have an executive committee that includes many notable negroes, such as Judge Royce of Georgia, ex-Register of the Treasury, Charles Anderson, assistant Collector of the Port of New York; George White of North Carolina, former Congressman; Robert Moten, Chicago theater owner; Capt. Small, Collector of the Port of Buford, S. C.; William Ward, the Pittsburgh business man; Milton Turner, former Consul General at Hayti; Rev. Mr. Carey of Illinois and Thomas Fortune of New Jersey."

Mr. LaFond's hair is gray and he speaks with a decided French accent, being a native of New Orleans, and half French. He has been in touch with the "big men" of the nation for a quarter of a century.

Bullfrogs Struggling.

According to a director of the Gold Bullfrog Mining Company, which was exposed in these columns a few weeks ago, the affairs of the moribund concern are about in statu quo except for the fact that attachments have been levied in Rhyolite for supplies furnished some months ago. An effort is now being made to meet these demands, but, so far, nothing tangible has come of it. At the time Callahan and his methods were exposed it was suggested that an independent mining engineer be sent to the mine to show the directors just where they "were at," but this plan has not yet materialized, owing, it is said, to the lack of funds necessary to pay professional fees. Since the bubble burst Callahan has had no meeting with the directors and appears to exhibit no undue haste to do so. In the absence of even a semblance of contradiction the directorate has been forced to the conclusion that the history of Callahan's operations has been in no wise overdrawn, and it is now generally conceded that his reports upon the Gold Bullfrog were along the usual lines, and, therefore, grossly exaggerated and entirely untrue. It is still hoped, however, that something may be done to save a portion of the stockholders' investment. It is about time that the directors made some move to place the blame where it properly belongs. Otherwise the elucidation of the matter may come from another source.

HIDE THE GOAT.

PASS THROUGH DIRE ORDEAL.

SHIRTSLEEVED BRIGADE TREADS PATHWAY OF SORROW.

Sustained With Well-Timed Refreshment, Twenty-five Members Are Initiated Into the Mysteries of Epsilon Chapter of Theta Nu Epsilon Fraternity.

Nearly every large university in the country was represented last night when Epsilon Chapter of Theta Nu Epsilon Fraternity initiated twenty-five new members. Fifty of the chapter took part, and the affair was the most imposing of its kind ever held here.

The proceedings started at 8 o'clock, when dinner was served at the Brink. Then the annual business meeting was held and officers elected. This done, candidates were ushered in and were given a short talk, impressing them with the gravity of the situation and the solemn vows they were about to take. They were then invited to refresh themselves preparatory to the trials through which they must pass.

Each was next ordered to remove his coat and, in shirtsleeves, the ambitious ones were marched, in single file, through the café. Thence the course was down Spring street, a serpentine march being made from sidewalk to sidewalk, until the Orpheum was reached.

There seats had been procured. The officers and members of the fraternity occupied the boxes while the candidates were placed in the front of the orchestra, sufficient old members being seated with them to keep them in order and to see they did not forget the solemn purpose for which they had been brought together.

The "trial" men practically took charge of the performance and each was received with generous applause. Between the acts the candidates were forced to stand up and give the Theta Nu Epsilon yell, a distinctive "hooting" superintended by the president of the trials.

From the theater the party went to Ler's Café, where the second and most important part of the initiation was gone through. One by one the candidates were forced to perform the "join the band" out for all ambitious to do so.

A special Torture Committee, composed of Charles Parsons, retiring president; George A. La Dous, Walter Moore, Boyd Constable and J. R. McKnight, had charge of the initiation. Prominent business and professional men acted as executors, the bearers and basket-men, while the security-guarded officers looked on to profit by the example of those skilled in initiation.

Women's Pretty White Canvas

Walk-Over

OXFORDS

At the beach—on the street—wherever dainty summer gowns are worn—white canvas shoes are in proper form.

The new Walk-Over models are decidedly pretty and distinctive.

And the values are truly remarkable.

At \$2.50 there are very clever models—button, straight lace and side lace—and the new pump effects with collar top—canvas covered heels, of course. Exclusive models at \$3.00, too—all with that typical Walk-Over style and comfort.

CREAM BREAD

Prepared according to the old "Pennsylvania Dutch" method, with rich milk, home made hop yeast, olive oil and the highest grade of flour—sanitarily sifted.

Mixed hygienically and baked in improved ovens.

Every loaf SEALED in a sanitary, dust and moisture-proof wrapper.

Never touched by hands after leaving the oven.

The purest, cleanest and most delicious bread sold in Southern California.

Over 70,000 loaves sold each week.

JELL-O

The Dainty Dessert

PREPARED INSTANTLY. Simply add boiling water, cool and serve. 1 lb. per package at all grocers. 7 flavors. Remove all substances.

After the ceremonies were finished, the new members were initiated sufficiently from the ordeal to be able to enjoy a supper, a banquet was served in the sunflower room.

Charles Parsons acted as toastmaster. A delightful menu was served. The room was richly decorated in the colors of the fraternity.

Speakers were made by prominent college fraternities from the various large institutions of learning of America.

Only members of recognized national college fraternities are eligible to membership in Theta Nu Epsilon, the organization therefore occupying a unique position among student bodies.

The members are, as a rule, graduates, few undergraduates being admitted. In the election of officers it is the endeavor to equally represent the different fraternities.

The officers for the coming year are: George A. La Dous, Phi Delta Phi, president; Edward Caben, Phi Epsilon, vice-president; James McKnight, Sigma Chi, treasurer; and Walter Moore, Sigma Chi, secretary.

The new Executive Committee is composed of Charles Parsons, Sigma Alpha Epsilon; E. M. Calley, Sigma Chi; Jack White, Sigma Chi; A. Peterson, Phi Epsilon; R. O. Thompson, Nu Sigma Nu; Boyd Constable, Sigma Chi; and Neil Brown, Phi Delta Phi.

## SALT LAKE ROUTE

## Busy Brains

use up the phosphates in food—busy muscles use up the nitrates. Both of these body-building elements are found in

"FORCE"

and are made digestible by cooking, flaking, maling and baking. It is the life of the wheat combined with the soul of the barley. Gives vim and vigor to tired brain and worn-out body.

"FORCE" is made of the best white wheat, steam-cooked, rolled into thin flakes, combined with the purest barley-malt and baked. Always "crisp" it before serving it by pouring into a pan and warming it in oven. Then serve in large dish with cream, piling the flakes in one side of the dish and pouring the cream in the other side, dipping the flakes as eaten.

Your grocer sells it. No other Flaked Food is "just as good."

**Editorial Points**

Frequently, as it happens, the best way to handle a hard case is to tackle him with a case knife.

We suppose Mr. Edison will go so far after while as to say that it is even unnecessary to snore.

Bryan says he will refund the money to Ryan. Well, Ryan isn't like the fellow who wouldn't take it.

Speaking of the saying that every dog has his day, it may also be remarked that every cat has her night.

Just give the buzz wagon a fair show, and it will make pulp and ribbons out of every life insurance company in the country.

When last heard of "the man with the scythe" was hiking for the woods, chased for his reputation as a killer by the automobile.

It will be a great day for the world when the moss grows on the roofs and cobwebs cover the office desks of the gun factories.

The new Methodist bishops are all orators. Still, as far as that goes, we fail to recall a Methodist preacher who could be called tongue-tied.

The monkey wrench that every well-equipped automobile carries is of no use whatever to the passengers whose anatomies are wrenched.

The Robert Burns anniversary celebrations will warm considerably in St. Paul after Bishop McIntyre takes up his residence in that locality.

The initiated sometimes wonder why colleges withhold the degree of doctor of laws from those who make a business of doctoring the laws.

It has been stated that most of England's colonies have been forced on her. But she sees to it that none of them are forced away from her.

The announcement that France is to withdraw her troops from Morocco may be taken as an indication that the situation is no longer binding.

The greatest problem of the age is transportation, and many a man who wanted to go some place has found out when he didn't have the price of a ticket.

After his nomination at Chicago Mr. Taft will doubtless be made the recipient of the honorary presidency of the National Prosperity Association.

People who are still in the market for driving horses are said to be demanding a guarantee with each animal that it will not shy at a Merry Widow hat.

The report that Gov. Hughes has paid absolutely no attention to his Presidential noom is to some extent corroborated by the condition of the boom itself.

Now that Congress has "arranged" the currency we trust that every man will have plenty of it in his business right along from this stage to the end of the road.

There are lots of business men who will enjoy this summer's vacation by remaining at home and having fun with the raft of new business that will come hiking in.

We must confess that we are growing weary of men who whine for independence when there are still millions of acres of land in this country crying for farmers.

John Mitchell now desires to be either Governor of Illinois or Vice-President of the United States. The evolution of a labor leader to a political office is easy and most natural.

Of course, the race between the automobiles and the balloons is tight, and anybody's race, just now, but we notice that the undertakers are still placing their money on the automobiles.

It is not surprising that women have been found who presented themselves at a prize fight. Some women have no objection whatever to placing themselves on a level with most men.

Edison's statement that four hours' sleep a night is all that's needed is perhaps more to discourage candidates for the police force than anything that has happened for several years past.

We feel that there will be a general acquiescence in the assertion that young men and young women who spend Saturday night at a dance will feel too tired to get up and go to church on Sunday morning.

It would be somewhat troublesome, of course, but it would prevent a number of accidents, if motorists were to make a habit of backing up their cars when they notice a woman getting ready to alight.

The different Christian denominations having concluded to quit fighting among themselves, the elimination of about 50 per cent. of the hard feeling of the world may be said to have been accomplished.

Every morning as the sun climbs across the Sierras and looks down on a man in a California valley with ten or twenty acres of land which is all his own, the god of day smiles with pleasure and satisfaction.

In order that the public may be reached with the announcement, we make use of these few lines of our valuable space to state that the Luncheon-Roosevelt Republicans have completed their programme of afternoon jink teas for the summer.

**WHO, WHY, WHITHER? AGAIN, WHY?**

The Republican party is in a peculiar predicament at this particular time, Senator Robert E. La Follette stands as the exponent of a trouble-making condition. As La Follette is the nth power in the Republican problem, so W. J. Bryan stands in relation to the Democracy. There is this difference: Mr. Bryan and those of his way of thinking dominate the Democratic party, while Mr. La Follette and his entourage are only trying to control Republican politics.

In spite of persistent and earnest efforts to unhorse Mr. Bryan by the conservative wing of his party, he keeps his seat and rides on in triumphal march, because his party is eaten through heart and soul with the notions for which Mr. Bryan stands. Meanwhile, Mr. La Follette and his crowd are perspiring in their persistent, strenuous, and so far fruitless, efforts to unhorse the management of the Republican party in order that he and his kind may control it.

Now here comes into view the signal peculiarity of the Republican situation. Mr. Bryan not only imposes himself on his party, but dictates everything for which his party is to stand. It is more than a month before that party's convention at Denver, but Mr. Bryan under his own hand and seal, has already given the public to understand in detail what the platform will be. Senator La Follette and his kind of Republicans would with all slanders, yes, with enthusiasm, stand for, support and preach, every doctrine in the Bryan creed. Free trade, stringent political interference with corporate activity, elimination of unionized labor bodies from the application of laws which bind all other persons, government ownership of utilities in a general way, an inflated, un-sound currency, and similar New-Light notions make up the Bryan platform. There is not one of these fads that Senator La Follette would not graft onto the Republican party if he could.

It is most peculiar that these notions are no more Democratic than they are Republican. Prior to about twenty years ago, not one of them was ever heard of in any Democratic gathering, and until 1896 they were never able to gain a foothold in the party. Mr. Bryan and his crew gained the ascendancy in his famous speech on the "cross of gold." The doctrines were not new. In a germinal form they came up out of the ground with the long-whiskered Populists of the Jerry Simpson type. They have spread like Scotch thistles into neighboring fields. By negligence on the part of conservative Democrats these weeds took entire possession of the whole ground and crowded out all the crops. They are growing rank, as might be expected, in the fields of the socialists of all shades. So we have Debs, Tom Watson and Bryan all preaching the same political gospel, or rather dysangel. And we have La Follette and all his following scattering these seeds in the Republican soil as fast as they can throw them on the winds of public opinion. It is keeping loyal Republicans busy night and day, with hoe and plow, with scythe and firebrand, to keep them down. Here we answer our first question, "Who?"

Why? Yes, why are these political revolutionists in the Republican party? They are in it because it is the dominant party and likely to remain so, and because they hunger and thirst after notoriety and political preferment with its honors and emoluments. There is plenty of room, and a heartily welcome awaiting them among the followers of Debs, of Tom Watson, and of Bryan. They would find themselves at home in any of these three parties. Indeed, but for personal ambition all the Debs following, all that with Watson and all the rest of the Bryanites, would be in one camp. It is to the La Follette kind of Republicans would be, if principles of sincerity could overcome their ignoble, selfish, personal ambitions. The loaves and fishes are in the Republican party and there they are in disguise for the sake of a square meal, and the disguise is very gauzy. That answers our second question, "Why?"

Whither? There is a secondary reason for their persistent hanging onto the skirts of the Republican party. They have no more place there than Judas had in the "goodly fellowship of the apostles." Their purpose is the same as that of Judas. Red-headed traitors they are to a man. While clinging to the skirts of Republicanism in order to get into the public eye or into a public office, the ring-leaders have a set purpose in mind to do to the party exactly what W. J. Bryan did to the Democratic party. If they can popularize the party they will then be able to control its destiny and thus gratify their personal greed for notoriety, for office, and for the advantages that come to office-holders and their near followers. There is the answer to the third question, and shows whither we are drifting and where we shall land, if we let the La Follette kind of Republican gain control of our party.

It is not a personal matter at all. It is a question of radical principles. The question is whether the party is to remain Republican in its doctrines, aims and purposes, so that it would be of vital interest to the country and its destinies whether the government is to be administered by a Republican, a Democrat, a Populist or a socialist President. If this falsely-called "Republican" faction gains control of the Republican party it will be all a question of personality which party elects the President. Under either administration the same fundamental ideas would prevail.

Senator La Follette is of Wisconsin. What has he to do with California? Personally nothing. But long-tongued Bob is only the exponent of a class. He lives here multiplied in men of his notions, purposes and sentiments. They are not quite so good declaimers as Hon. Robert of the Badger State; but they are as persistent as Bryan, as Watson, as Debs or La Follette in spreading broadcast these seeds of un-Republican notions. They have the same burning thirst to be in the public eye, the same keen hunger for office, the same treacherous disposition to Bryanize, populize, socialize the party, gain control of the party, of the government, and put these same noxious principles in force.

If their purpose is to be thwarted, we must have the sleepless, tireless, unremitting, active zeal of real Republicans, with hoes and plows, with scythes and torches, to uproot, cover up, cut down and cast into the fire these tares in the wheat field—to discourage the traitors, disappoint their ambitions, and drive the facing-both-ways crowd into the camp of Bryan, Watson or Debs, as their personal preference may lead the way.

The Times hopes it thus makes clear why it so strongly opposes the political designs of the so-called "Lincoln-Roosevelt" combination and its allies, the Lem Biddle-Pennsylvania-Pinkard McCarthy-Quakers—a coalition with un-Republican, un-sound and dangerous principles, and with untrustworthy, self-seeking and demagogic leaders. If the Times has not been sufficiently explicit and specific it will try again.

#### GLADYS VANDERBILT.

How many months, or is it only weeks, since Gladys Vanderbilt, one of the sweet flowers of American womanhood, threw herself away upon an exceedingly poor specimen of European nobility for the sake of a title as empty as any vain thing that ever caught the heart of man or woman upon earth? It seems but yesterday that she left the atmosphere of her own home, sweet and wholesome in the main, where her life was surrounded with every luxury that American wealth could bestow upon her. She follows this ignis fatuus of a decayed title into a wilderness to live in a ramshackle old

## "NONE SO BLIND," ETC.

abode dignified with the name of a castle, with nothing about it to recommend it but its age. The eyes of an American which have ever rested upon one of these famous castles receive an impression which years cannot efface—banal to the last, degree, uncomfortable as a hotel, surrounded by nothing inspiring or beautiful, and lacking in all the common comforts of life.

But what is the use? Why waste patience, energy, ink and paper in commenting upon these events. She was one of the last to be caught by the glitter of an antiquated title. She will not be the last by many hundreds. In spite of her experience and in spite of the life story of dozens of American girls who have committed the same folly, dozens more will follow in their unhappy footsteps to the same terrible awakening as to the mistake they have made. The Shonts girl, who married a duke as decayed as his own old castle, is still weeping her eyes red over her folly. Gladys Vanderbilt has just begun to shed tears. These are now things of the past. The interesting question is, who is to be the next victim? And many more American girls will make the same mistake, to experience the same rude awakening.

#### A GAIN THE GREAT CONTEST.

A summer vacation for the boys and girls of Southern California without a Times Scholarship Contest would be no vacation at all. A summer without these bright boys and girls in the running, from one end of the great Southwest to the other, wouldn't seem like summer, any more, to the people of this, our blessed land of peace and prosperity. It would be quite impossible to estimate the value of this annual contest to the young people. They not only earn money for themselves, but they earn what is better than money—an education and the lessons of self-reliance, energy, honesty and vitalization.

As a character builder, who can point out anything better than The Times Scholarship Contest? It has come to be an institution which is looked forward to by the youth of the Southwest as presenting them with opportunities that they could grasp in no other way. It is something for a man or a woman to look back upon in after life to be able to say that he or she laid the foundations of their own success.

The Times makes the task possible of accomplishment. The people read and subscribe for the paper, and they take a special delight in turning over the money to some bright and courageous boy, or some sweet, gentle girl who is out upon the highway of life to make his or her first ventures. The Times remembers with pride and affection the many contestants of past years who are now on the high road to success in life. This year it is to be expected that the roll call will show a great increase over all other years for the reason that it is the victories of the past that incite the victories of the future.

#### SKILLED WORKMEN ON THE JOB.

We are told that the great President now in office and the very capable statesman who will succeed him when he retires on March 4, 1909, with several other skilled workmen in the business, are actively engaged in the construction of a national platform for the Republican party in the coming campaign. There can be no misgiving about the workmanship of these capable hands. Practically nearly three weeks before the seal of the convention is put upon it, we have selected the man of all men in the body of citizenship in this country to succeed our strenuous President. The next important thing in hand is to present to the people a declaration of principles which shall be sound in their Republicanism to the very core. With the right candidate and a true ring in the resolutions setting before the people the kind of administration he intends to give the country, there is no room to doubt what the action of the people will be.

We are a cosmopolitan people, made up of many heterogeneous elements; but although in three-quarters of a century we have received, absorbed and digested more than 200,000,000 persons of foreign birth, the great mass of our citizenship is thoroughly American, thoroughly intelligent, and sound to the core on principles which have guided the Republican party for the past fifty years, and through which the progress of the country has been so rapid and our general prosperity so great.

The business of the country at present, following upon a financial panic, is still inclined to lag a little because of the small uncertainty still remaining as to who is to be the Republican candidate and as to the prospects of his success. It is worthy of attention that as the days and weeks pass by and the coming events cast their shadows before a depression tends to pass away slowly, giving place to renewed activity and the recrudescence of progress, with prosperity for those who are carry-

ing on business and for those who live from their daily wage.

The country is on the tiptoe of expectation, awaiting announcement as to what the character of the recast political creed of the party shall be. That it will in the main contain the same tenets as heretofore, merely restating the old truths, in order better to meet new conditions, is what we all have a right to look for.

#### THE PROGRESSIVE CHURCHES.

Who dares say the churches do not keep up with the times? This is the progressive age and the churches often lead in innovations. The churches have installed lunch rooms; they have nursery attachments, basketball and baseball clubs. All these are of long standing. And now, to cap all climaxes and put finish to the history of progress, one church has put in a "courtroom." This is in Chicago, in the breeziest corner of the breezy West, where cowboys were brushed out of people's brains long ago. In the West, effete tradition, stale custom and all out-of-date things die as soon as they are transplanted to the rich new soil. Think of it! This is a Presbyterian church, too! What would sedate, cold John Calvin, or that Scotch thistle, John Knox, say if they saw a temple provided with all these modern appliances? Musical instruments have long ceased to be novelties in these modern Presbyterian churches, although in the days when Old Mortality felt that he "maun bear his testimony" no matter how unacceptable his jeremiad might be, the organ was dubbed the "devil's kist o' whistles."

The courtroom attachment of this church of the new age is to be "complete with cozy corners, screens, chaplains and soft-toned lights." Think of that! They are all right—all except the chaplains. When some of us were young the most acceptable light was one turned down to absolute extinction, and a chaplain might have found favor if he would remain upstairs, in the woodshed, or, better still, in the next block. Who wants a courtroom with a chaplain in it, and why waste money in lights, however soft they may be?

Oh, well, the idea of a courtroom in a church is new and so is the century. The young people will find some way to dispose of the chaplains and the lights if they are like the young people of a previous generation.

#### MEN AND THINGS OVER THE SEA.

##### Lord Morley Affirmed.

Lord Morley occupies the anomalous position of being an agnostic and at the same time, as Secretary of State for India, under the necessity of selecting the divines of the Church of England for nomination to the bishoprics of Bombay, Madras, Calcutta and other Episcopal sees of India. Because of his belief he is permitted to affirm when he went through the ceremony of taking his seat in the House of Lords. There was absolutely no precedent for this in the 800 years' history of the House of Lords, but Lord Loreburn, the Lord High Chancellor, who is a very broad-minded man, suggested the necessary alterations in the form of the oath so as to enable it to be administered without offending the conscientious scruples of Lord Morley.

##### Trade Ruined Abroad.

The eyes of European business men are turned to America, says Adolph Lewishson, one of the best-known mining men of the United States, now in London. If conditions in this country turn out well, the business in Europe will revive. Business in Germany has been good through the winter, but has been concerned almost entirely with the execution of orders standing. There has been little new business. Money has been tight, but it is getting easier. There is plenty of money in France.

##### A Queen in Trade.

Her Majesty Maria Sophia, Duchess of Parma, Grand Duchess of Bavaria, and of Tuscany, the widowed Queen of Naples, has opened a shop in Paris for the sale of clothes. The former Queen of Naples is an old woman now. She reigned over Naples for less than two years and fled, with her husband, from the red-shirted troops of Garibaldi. Etc., though her reign was short, she was always an autocrat, and for years, as she wandered over Europe an exile, was bitter in her hatred of democracy. By birth and marriage she is connected with all the royal houses of Western Europe.

It was about fifteen years ago that she took up her residence in Paris. She lives in the Boulevard Maillot in a humble way, almost alone, save for an occasional visit from the old Baroness de Rothschild. Her shop is in the Rue St. Roch, a few steps only from the Tuilleries.

##### Kaiser's Microbe War.

The German Kaiser has many strange impulses. The latest appears to be a declaration of war upon the microbes. Among the many impediments which His Majesty has taken with him to Corfu is an apparatus for disinfecting books and newspapers. The Kaiser, it is said, is getting more afraid of microbes all the time, and he will not touch even

the most elaborately bound new volumes. He is trying to make his books disinfected by means of a battery capable of generating an electric current. The book, newspaper or magazine is put in the apparatus for a longer or shorter period according to its size, style of binding, etc.

**King Alfonso is Popular.**  
 King Alfonso bids fair to become the most popular monarch in Europe. Alfonso is venturous to a degree, he never forgets rank or the traditions of his ancestors, but he is not a traditionalist. While he assiduously cultivates popularity, young King has no liking for those traditions of homage which in the old days monarchs exacted. Of this he has recently given examples. At Salamanca, a few months ago, the king and the queen, with the Mayor of the town and the sector of the city lined before him with the intention of his hand. But he had them stand up, and forget, sir, that I am simply a King.

**HOROSCOPE.**  
 Tuesday, June 2, 1920.  
 The latest and most accurate horoscope for the month of June is given below.

On this 15th day of the year, Venus, in conjunction and benefic aspect with the moon, Uranus is in opposition, an eventful day for the lovers, and for the lovers of Venus. On woman the signs shine with force, twenty-four hours are excellent to hire a new and delicate experiments in household, and try on dresses.

A good day for fish, or fishing. Courtship, marriage and wedding under the best of auspices this day, before 10:30 a.m.

Superstitions should be inclined to listen to petitions this day, especially in the morning.

At 3 p.m., wintergreen, lettuce, cucumber, white poppy, purslane and daisy, the moon, will be at their best.

The man with this birth date will be great change through a wedding.

The man with this birth date will be great change through a wedding.

The girl born today will be very happy and company, and will profit by being married.

The boy born this day will need a long struggle for his life.

Interpret all your motives just as you are. You looked on one whose aims you are. Let undisguised contempt surge through you.

See you shift, O, commences a new chapter, when the past is a memory, and in the future, the future is a memory.

And then with eyes unveiled to what is to come, with a sweet charity, you will find that the future is a memory.

Back to your self-willed temperament, you will find that the future is a memory.

The facts of others will dwarf and diminish, and you will find that the future is a memory.

Love chains grow stronger by one's own, and you will find that the future is a memory.

When you, with "he" as a substitute, you will find that the future is a memory.

Have stood aside and watched your own, and you will find that the future is a memory.

# Queen Quality

## A BED-ROCK INSTITUTION

This is a period of commercial caution—an outraged public confidence now demands proof before it enthralls. Never were conditions more propitious for clearly demonstrating merit, or more disastrous for the reception of promises which are never fulfilled.

"Queen Quality" shoes will stand the calcium of rigid investigation. They represent a clean, typically American organization, whose inception introduced a remarkable era in shoe manufacturing. No safe structure was ever built on a sand pile; sound foundation is a primary essential. Large structures require careful planning, deep digging—and often a driving of piles; sure safety rests on bed-rock.

Planning the "Queen Quality" institution was the work of a genius—Thomas G. Plant of Boston. It has been cited as a wonderful illustration of the ability of Alexander Hamilton, that he devised and put into operation as the first Secretary of the Treasury the method of bookkeeping which is still in use by the government, a method which, beginning in the day of small things, has adapted itself easily to the immense operations of the Treasury Department of today. Is not the fact worthy of comparison with this achievement, that the "Queen Quality" organization, which now produces over eleven thousand pairs of shoes daily, is conducted on the same general lines inaugurated by its founder?

"Queen Quality" was the pioneer of colossal organization so far as shoe manufacturing is concerned. Its purpose was the production of fine shoes for women at the lowest possible cost. From the start it enjoyed immense capital; and there has never been a time in its history when it had to hesitate for capital in any amount—if the investment offered a possibility of either improving the product or reducing the cost of production.

The "Queen Quality" makers have never been content with simply producing better shoes than competitors at certain prices; that goal was passed ten years ago. The constant determination has been to produce the best women's shoes in the world—and yet keep within the boundary of reasonable price. Do ordinary manufacturers producing shoes at "Queen Quality" prices attempt to offer "Queen Quality" styles? In their product you find the emphatic answer—no! The tribute of imitation to "Queen Quality" comes today from the most exclusive makers of high-priced women's shoes.

A newspaper with a circulation of a million can afford expert news gatherers, brilliant contributors, artistic illustrators and authoritative critics. These same agencies are impossible to the country journal. And so with the making of shoes. It costs as much to draft a pattern for one pair of shoes as for ten thousand pairs. Improvements which to small producers would mean expensive innovation, to the large dealer is economical necessity. The factory with an immense output can afford to pay liberally for genius to plan and skill to execute. The proportionate cost per pair of shoes in each case is vastly different; in this difference lies the great advantage of the colossal producer.

Every logical reason exists as to why "Queen Quality" should be the best shoes in the world at reasonable prices. Decidedly the shoes justify these reasons; they are by far the handsomest shoe models sold at any price, and the only really fine shoes sold at anything like their prices. They are comfortable, durable and unexcelled for fit.

We realize that the foundation of a good shoe store must necessarily be good shoes; these we have liberally provided. But how easily the best of merchandise may be demoralized by careless selling? Witness the indifferent shoe store; you enter and after an awkward wait of several minutes are approached by a frowning clerk as if your visit was an intrusion; perhaps he looks at his watch to see if he has time to wait upon you. You are served as if it was a favor to you and you could not trade elsewhere. If you insist on a careful fit or wish to deliberate between styles—you may be subtly informed that you don't know what you want and are under obligation to accept the salesman's judgment. And when you have made a selection and paid your money you may be handed your package and change as bread is handed to a man in a charity "soup" line.

At our stores you are served right. We cannot exist in business without the public; the public could worry along without us. We impress this fact on every salesman we employ—and we are particular to select men who have intelligence enough to know what it means. We do insist that our salesmen be competent shoe men—but unless the competency is linked with courtesy—we cannot use it. Our customers are our guests and we aim to make their visits both pleasant and profitable. We invite you to test our methods any day.

TWO STORES

451 SOUTH BROADWAY ~ 239 SOUTH SPRING STREET

### IN THE BIG INDUSTRIES.

**Steel Trust to Make Cement.**  
The United States Steel Corporation is to soon begin the manufacture of cement on a scale that will make it a serious competitor in that industry. The waste slag of the iron and steel furnaces will be used, experiments having proven that it combines the requisite qualities for the purpose. Heretofore this material has been thrown away. The cement plant will also be operated with the waste gas from the company's furnaces. The first or test plant will be opened at Hotchkiss with a capacity of 3,000,000 barrels a year, a million dollars being put into the erection and equipment of the plant. Another plant will soon be

erected at Chicago. Heretofore the steel trust has been one of the largest buyers of cement, using it for lining and relining its furnaces.  
**Concrete Fly Wheels.**  
Concrete has been utilized for a novel purpose in South Africa, that of flywheels for slow-speed pumps. High freight rates make iron and steel machinery very costly, and the use of concrete rims for the flywheels of ten pumps is stated to have realized a saving of about \$10,000. The flywheels are driven by electric motors through worm gear about twenty revolutions per minute. Each wheel is fourteen feet in diameter, with cast iron bosses in which sixteen spokes of four-inch tube are screwed, and the rim has a base and an outside of one-fourth-inch

sheet iron strips, separated by distance pieces. The strips are bolted together, the concrete rim between being thirteen inches wide and thirteen inches deep, strengthened by four one-fourth-inch wires interlaced with the distance pieces. The weight of the wheel is 8000 pounds and that of the rim 600 pounds.  
**Cut Timber in Siberia.**  
Australia has turned to the forests of Siberia for a lumber supply. An Australian corporation has secured from the Russian government a concession that will permit it to take out 30,000,000 feet of timber yearly from the Siberian forests, about 800 miles from Vladivostok. This lumber will be delivered at Melbourne, 5000 miles away. In taking out the Siberian tim-

ber the Melbourne lumbermen will have to ship the entire year's cut in July, August, September and October, for during the remainder of the year there is no open water at the point of shipment. What makes this unusual feature of transporting bulky logs 5000 miles quite feasible is that such unmanufactured stock is admitted free, while there is a heavy duty on all manufactured wood taken into Australia, the duty on lumber, for instance, being nearly \$5 a thousand board feet. At Melbourne a new mill is being erected to manufacture these logs into dressed stock.  
**Cotton Mill Wages.**  
At Fall River, Mass., the cotton mills have been operated the past year under an agreement with the labor

organizations that based the rate of wages on the profits of the mills, wages to be rearranged every six months. At the conference held a week ago it was shown that the profits had suffered so much during the six months just closed that the wages will have to be reduced from 23.36 cents per cut to 19.66 cents. This is a reduction of 17.34 per cent., which will be a pretty heavy reduction for union labor to submit to without throwing up its agreement.  
**Texas Sulphur Deposits.**  
The vast deposit of sulphur recently discovered near Liberty, Tex., is to be developed by a syndicate of St. Louis capitalists who propose to expend not less than \$1,000,000 in the enterprise. The explorations and tests

that have been made of the sulphur field show the strata to be from 75 to 100 feet in depth, and to lie about 325 feet below the surface of the ground.  
**American Lumbering.**  
More lumber was cut in the United States last year than in any other year in its history. The enormous amount of 37,550,738 board feet was produced, and the mill value of this was \$21,151,233. In addition there were produced 11,858,590 shingles, valued at \$24,155,555, and 3,412,977,000 lath, valued at \$11,490,570. On the whole, it is safe to say that the present annual lumber cut of the United States approximates 40,000,000,000 feet, and that the total mill value of the lumber, lath and shingles each year produced is not less than \$700,000,000. These fig-

ures give some idea of the demand for the product.  
**An Impending Correction.**  
The recent cotton market has been made by Prof. Dowd, who maintained the proposition that the market quotations were too high. A number of his followers are now being arrested, and the Port Costa Milling Company is covered what was going on in the market. The cotton market is being watched by the government, and the cotton market is being watched by the government, and the cotton market is being watched by the government.

## MEN

I Cure  
Where  
Others  
Fail

My reputation as the  
leading specialist  
in all the various  
diseases of the  
male sex is well  
known to all who  
have not made a  
study of the  
subject.

My skill, ability and straightforward  
method of treatment has won for me  
the confidence of the public and the  
praise of the medical profession.

Pay Me When Cured  
I promise my patients a complete cure  
in every instance, and in cases where  
I cannot make this promise I will  
refuse to treat. You can see no  
reason for this.

Consultation Free  
I make absolutely NO CHARGE for a  
consultation, and my advice is  
valuable, whether treatment is begun  
or not. If you cannot call, write to  
me at my home.

DR. MILES  
The Medical Specialist

Vital Decline Can Be Cured  
Vital decline, commonly called weakness,  
is the result of disordered conditions. It  
disturbs the body in many ways, and is  
the cause of many diseases. It is the  
result of a disordered condition of the  
body, and is the cause of many diseases.

Contagious Blood Disease  
May be inherited or contracted. When  
the system becomes tainted with the poison  
of this disease, it is the cause of many  
diseases. It is the result of a disordered  
condition of the body, and is the cause  
of many diseases.

Weakness  
Weakness is not a nervous disorder. It is  
the result of a disordered condition of  
the body, and is the cause of many  
diseases. It is the result of a disordered  
condition of the body, and is the cause  
of many diseases.

Free Consultation  
I do not charge for advice, examination or  
diagnosis. If you call for a private  
consultation, you will not be charged.
